Welcome to

Alpha Plants Ltd

...for a quality start

Welcome to our latest brochure, coming after a roller-coaster year of challenges and opportunities. Over this period, we have seen an influx of people engaging with their gardens for the first time and now have the challenge of nurturing that interest to keep gardening as part of the new normal.

Our range of plants offers a mixture of traditional, reliable lines along with new introductions to be able to keep offering you the latest, exciting varieties.

Salvias have continued to grow in popularity and are rapidly establishing themselves as a 'must have' line for most nurseries. With conservation and 'bee' awareness at the forefront of environmental discussions, wildflowers are in strong demand. Our wildflower plugs are ideal for creating your own selections in 9c pots or as mixed packs or collections to give your customer their own mini meadow in their garden. Along with our ranges of Herbaceous perennials, ornamental grasses, herbs, penstemons and Victorian violas there is plenty to choose from.

High quality, competitive prices, and the security of avoiding import regulations and costs, means you can order from us with confidence.

GUIDE TO OUR LISTINGS:

Each section within our listings is colour coded. To help you quickly find what you are looking for, the varieties are listed alphabetically within each section

Flower Periods and Heights:

This information is given as a guide for full grown/mature plants.

HOW TO ORDER:

3 easy ways to place your order:

Call Sue or Mike: (01775) 640150

email: sales@alphaplants.co.uk Fax: (01775) 640600

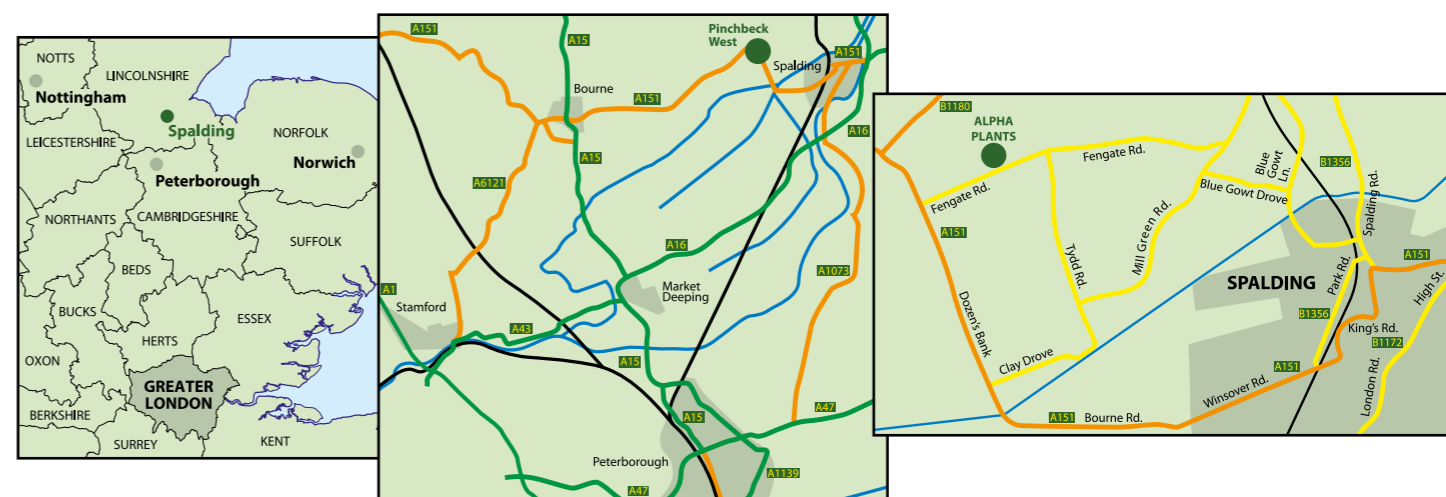

Placing Your Order: Most of our plants are grown to order so please order as early as possible and normally we require a minimum of 8 weeks lead time unless ordering off the spares list. Please complete our order form (available on request if you don't have one!) with the number of trays required of each variety and your preferred delivery week and either e-mail, fax or post it back to us. Upon receipt, we will forward an order confirmation to you.

Deliveries: There is no minimum order quantity, however all our orders are dispatched on CC Danish trolleys (exchangeable or returnable at the time of delivery). Therefore, due to the transport costs we would recommend a minimum of 20 trays on a trolley. A full trolley will hold 44 trays of plugs, depending on the varieties selected. All orders off spares list / current availability received by 10 am on a Monday will be dispatched (subject to availability) the same week.

Prices and Delivery Charges: All prices are quoted per plug, ex nursery, ex VAT. Transport will be charged extra at cost or collection from the nursery can be arranged. Please note we are unable to deliver to residential properties or give timed delivery slots.

Payment: For customers holding a credit account, all invoices are payable within 28 days of the date of the invoice. For non-account customers payment is required prior to dispatch. If you wish to open a credit account with us, please contact us for an account application form.

HOW TO FIND US:

'Quality plugs at the right price when you need them'

SALVIA

The demand for Salvias is showing no signs of easing up and many nurseries now have Salvias as main displays during the summer sales period.

We are able to offer you a range of over 75 varieties, covering several different species, giving you something for everyone! Our larger leaf 'gauranitica' types are more suited to larger pot production whilst microphylla, greggii and hybrid types are more compact and hardy and give you a rainbow of colours to choose from.

Salvias are easy to grow, respond well to PGR in warmer weather to give you a more compact plant and will flower 5- 6 weeks from potting or 4 weeks from the last pinch.

Cultivar/Variety	Species	Product Description	Height cm
African Sky (PBR)	hybrid	Arching stems of sky-blue flowers.	60
Amante	gauranitica	Related to and complementing the popular 'Amistad', this new variety has bright fuchsia flowers couched in burgundy-black calyxes.	120
Amethyst Lips	greggii	One of the 'Lips family' having striking two-toned flowers of purple and white – but beware, colour changes depending on the weather.	100
Amigo	gauranitica	A friend to Amistad and Amante with arching stems surrounded with two-tone purple-indigo flowers with dark calyxes.	120
Amistad (PBR)	gauranitica	Bearing large, velvety purple flowers with almost black calyxes, Amistad is acclaimed by gardeners for its architectural structure.	120
Angel Wings	microphylla	Delicate two-toned pink flowers with a soft pink blush.	80
Animo	gauranitica	Deep royal blue flowers with a calyx darker than 'Amistad'.	120
Beyond Blue	patens	Spikes of ice-blue open-mouthed flowers look luminous in sunlight.	60
Black & Blue	gauranitica	Tall, statuesque plant for the back of a border with dark cobalt blue flowers set in a black calyx.	150
Blue Butterflies	sagittata	Cornflower blue flowers with lower lip extended giving the impression of butterflies.	120
Blue Merced	x jamensis	Large, lavender blue flowers.	60
Blue Monrovia	microphylla	Dazzling deep blue flowers from June to October.	75
Blue Note (PBR)	x jamensis	Stunning spires of intense royal blue flowers.	60
Brenthurst	coccinea	Upright spires of coral and shell-pink flowers that resemble tiny orchids.	60

California Sunset	x jamensis	A unique blend of colours, apricot, peach and orange, an unlikely combination perhaps only seen otherwise in a sunset!	80
Caradonna	nemorosa	Slender pointed spikes of small violet-blue flowers.	60
I Cavalieri del Tau	microphylla	Dark stems of two-lipped, magenta flowers with white throats.	80
Cerro Potosi	microphylla	Neat, aromatic green leaves and magenta-pink tubular flowers.	90
Cherry Lips	greggii	Cherry and white bi-coloured flowers, one of the 'Lips' family but note if dull days are prevalent then the solid colour will dominate.	90
Cherry Pie	x jamensis	Mid green veined leaves with magenta to reddish-purple flowers.	50
Christine Yeo	hybrid	Spikes of violet-purple flowers over small aromatic leaves.	60
Clotted Cream (PBR)	x jamensis	Large creamy-white, open-mouthed blooms.	60
Cool Cream	hybrid	Deep purple stems hold spikes of creamy white flowers.	60
Cool Pink	hybrid	Spikes of pink flowers with a cream eye, held on deep purple stems.	60
Cool Violet	hybrid	Tall stems of pale violet – purple flowers.	60
Dayglow	hybrid	Spikes of two-lipped flowers, brilliant dayglow pink with a contrasting small white throat.	60
Dyson's Maroon	microphylla	Shrubby perennial producing clusters of rich maroon - purple flowers.	80

East Friesland	nemorosa	Erect racemes of deep violet-blue flowers with pink bracts.	45
Embers Wish (PBR)	hybrid	Spikes of bright fiery-orange and coral flowers emerging from papery, dusty rose bracts.	80
Emperor	greggii	Masses of velvety royal purple flowers.	60
Flamingo	splendens	Striking flowers with coral calyxes, pink corolla tubes and orange lips.	100
Glacier	microphylla	Flowers of the purest ice white.	60
Harvest Sunset	x jamensis	Harvest golden flowers with a flush of sunset red orange from the upper lip intensifying along the corolla.	60
Hot Lips	microphylla	Floriferous variety with eye-catching bicolored red and white flowers in summer, sometimes completely red or white when the days shorten.	100
Icing Sugar (PBR)	greggii	Pretty magenta pink flowers bleeding through mid to pale pink on the lower lobes.	65
Javier	x jamensis	Masses of velvety black buds and calyxes revealing spikes of bright mauve -purple flowers.	65
Jemima's Gem	greggii	Particularly large flowers are cerise in colour and look like velvet.	100

HERBACEOUS PERENNIALS

We offer our perennials in a large 50 mm diameter plug, giving you a robust plant ready for potting straight into a 1L – 3L pot, without the need to make a liner first or the need to provide a heated production area.

Plugs available for delivery Wks 7 to 10 have all been over wintered, giving you a more vigorous plant that will flower in the first season.

If you are new to Perennials, look out on the images for our 'Top Tip' varieties as these will give you a popular and reliable range to get you started.

FERNS

We offer a wide range of Hardy ferns in a 7cm liner tray ready for potting into 1 - 3 L pots in either Spring (Wks 9 – 13) or Autumn (Wks 35 – 39). Grown cool & moist, avoiding strong sunlight, and having low nutritional requirements makes them an easy to grow plant to meet the rapidly growing public interest.

We have listed some of the most popular varieties we produce, with a range of leaf colours, shape, and size. However, if there is a variety you require and you cannot see listed, please contact us. Please note, the early stages of plug production are very slow and therefore there is a 9-month lead time although we can at times offer a more limited selection at shorter notice.

Cultivar/Variety	Product Description	Height cm
Asplenium (Phyllitis) scolopendrium (Hart's Tongue Fern)	Evergreen fern with arching tongue-shaped fronds.	60
Athyrium felix-femina (Lady Fern)	Deciduous fern with delicate, bright green, filigree leaves.	80
Athyrium niponicum 'Metallicum' (Japanese Painted Lady Fern)	Popular deciduous fern with fronds of silvery grey green with variable burgundy staining towards the centre and midrib.	30
Blechnum spicant (Hard or Deer Fern)	Neat, tufted evergreen fern with Ladder-shaped, leathery, glossy fronds.	50
Cyrtomium fortunei	Upright evergreen fern with bright green fronds and distinctive black stems.	120
Dryopteris affinis	Magnificent semi-evergreen fern, bearing long, upright, pale green fronds with contrasting brown, scaly stems.	120
Dryopteris affinis 'Crispa Whiteside'	Semi-evergreen, with green fronds that are attractively crisped and wavy edged.	60
Dryopteris affinis 'Christata The King'	Semi-evergreen fern with crested, large arched fronds twisted at the tips.	120
Dryopteris erythrosora (Buckler Fern)	Semi-evergreen fern with fronds having a copper tint when young.	75
Dryopteris filix - mas (Male Fern)	Robust deciduous fern forming a shuttlecock-like tuft of lance-shaped fronds.	120
Matteuccia struthiopteris (Shuttlecock or Ostrich Fern)	Attractive deciduous fern bearing large, pale green, lacy fronds.	150
Onoclea sensibilis (Sensitive Fern)	Deciduous fern, producing lush, apple-green fronds.	60
Osmunda regalis (Royal Fern)	Tall, deciduous fern bright green fronds that turn attractive red brown in autumn.	180
Polystichum setiferum (Soft Shield Fern)	Large, evergreen fern, bearing soft, dark green fronds.	120
Polystichum setiferum 'Proliferum'	Evergreen fern pinnate, divided fronds in neat shuttlecock-like rosettes.	90

VICTORIAN VIOLA

Since their introduction, we have been pleased how these RHS Gold Medal winning Victorian Violas have been received by the public.

These robust, cutting raised perennial plants, in an exciting choice of colours and many with a strong scent, have found a premium position in garden centres being offered in a 1L-1.5L flowering pot.

After flowering, they can be cut back by half to come again the same season or over winter to start afresh the following spring.

WILDFLOWERS

With so much media interest currently in conservation and bees, wildflowers are now emerging from being niche to a mainstream crop.

We offer our Wildflowers in a 30 mm plug so that you can put together your own range for your customers in either pots, packs, or mixed containers. Our plugs are available for delivery in either spring or autumn as this is when they do best, avoiding the main heat of summer when they grow rapidly and prefer to flower, making shelf life short.

So why not give them a go and get your customers 'buzzing'!

The plug

1. These conditions of Sale are incorporated into every order for plants at Alpha Plants Ltd and on acceptance of any such order are terms of the Contract of Sale. In the event of inconsistency between these Conditions and any order form or purchase note delivered to us in respect of an order these conditions shall prevail
2. These terms and conditions and all orders accepted or contracts made incorporating these terms and conditions shall be governed and construed in accordance with the laws of England and Wales and all parties submit to the exclusive jurisdiction of the English courts.
3. Any Contract of Sale is made on the assumption that plants of the variety and type specified in the Contract will be available at the date of despatch and the Contract is conditional upon the availability of such plants at the time specified for despatch. In the event of such plants not being available for whatever reason we reserve the right to substitute alternative varieties unless the customer specifically requests no substitutions. Confirmation of an order by us, verbally or in writing, does not constitute a guarantee of delivery.
4. Any descriptions or pictures shown in any sales or promotional literature or website content provided by Alpha Plants Ltd are for general information and guide purposes only and do not constitute any part of the product specification or contract.
5. Cancellations of orders for young plant material and rooted cuttings must be made as soon as possible and no less than 6 weeks prior to collection / delivery date. On cancellation with less than 6 weeks notice, we reserve the right to charge 50% of the invoice value.
6. All prices issued are subject to alteration without notice but will be notified prior to despatch. All prices are exclusive of any applicable valued added tax or other tax or duty, which the customer will be additionally liable to pay to Alpha Plants Ltd.
7. Unless otherwise agreed, payment is due within 28 days of the date of the invoice. If payment is not received by the due date Alpha Plants Ltd is entitled to cancel the contract or suspend any further deliveries and charge 2.5% per month from the date of the original invoice until payment in full is received.
8. The title to any plants or goods supplied remains with Alpha Plants Ltd until all plants or goods are paid for in full. However, the plants or goods become the property and risk of the customer from the moment of delivery or collection.
9. All reasonable steps will be taken to ensure that delivery is affected at the agreed time but we cannot accept any liability for any loss arising from delayed delivery however it might be caused. Any damage or delay in transit should be notified to us by the customer in writing within 24 hours from the date of delivery.
10. Should any of the plants supplied fail to comply in quantity, quality or description with the particulars of the order we shall be liable to replace the defective plants with other plants which are in all respects in accordance with the order or if such goods are not available refund the purchase money (or a proportionate part of the purchase money) in respect of the defective plants, but we shall in no circumstances be liable in respect of any other loss incurred by the customer as a consequence of the supply of the defective plants. That notice in writing be given within 24 hours from the date of delivery is a condition precedent to any liability on our part unless the customer can establish that the defect in the plant had not become apparent within that period. No exchange of product or credit will be given until, if requested to do so and paid by the customer, the defective plants in question have been returned to Alpha Plants Ltd in reasonable condition and within 7 days from the original date of delivery.
11. We try to ensure that the plants are free of disease or infection but should diseased or infected plants be supplied against any order the customer must give notice in writing to us immediately the presence of such disease is suspected or discovered, or ought with reasonable care to have been suspected or discovered. Subject to us being satisfied that the disease or infection existed at the time of despatch and materially affected the plants and did not arise through any other cause we shall at our option replace materially affected plants or refund the purchase price of such plants but shall incur no other liability in respect of any consequential loss of whatsoever nature arising out of the supply of such plants.
12. Any plants supplied which are subject to Plant Breeder's Rights agreements are subject to a royalty required by the respective Plant Breeder, and are fully protected under the Plant Breeder's Rights Act. The placing of an order for these protected varieties constitutes an acceptance of the conditions of the Plant Breeder's Rights scheme. Propagation is not permitted without a licence agreement. The appropriate royalty has been added to the price charged in respect of finished products and will be quoted separately in respect of young plant material and rooted cuttings.
13. Any seed or plant material supplied to Alpha Plants Ltd by the customer for propagation or growing on is done so at the risk of the buyer and as such no liability shall be accepted for any loss or damage of the stock however caused. Alpha Plants Ltd reserves the right to take any actions deemed necessary to comply with any statutory notices issued to them whatever loss or damage this may cause to the stock and any additional costs in complying with the notice may be charged to the customer over and above the agreed contract price.
14. Alpha Plants Ltd retains a general lien on any of the customer's equipment or materials in its possession for any unpaid balance the customer may owe to Alpha Plants Ltd. Representatives of Alpha Plants Ltd shall be entitled to enter the customer's premises and remove and sell such equipment or materials in the event that payment is not made in full within 28 days of notice given by Alpha Plants Ltd to the customer of its exercise of the lien. Proceeds from any such sale may be taken by Alpha Plants Ltd to the value of the outstanding debt with any surplus monies being returned to the customer.
15. On acceptance of our terms and conditions, we are authorised to maintain computer records in relation to your business with us (in accordance with the Data Protection Act) and from time to time to send you faxed / emailed information regarding our products and availability or contact you by telephone unless written notification is given to the contrary.
